SCIENCE
OF BASEBALL

PGW hosted a Science of Baseball STEM event for 300 students from the School District of Philadelphia at Citizens Bank Park in May.

PGW volunteers were all in - helping kids explore the power of STEM through baseball-related, interactive STEM activities. The program is designed to teach and reinforce academic skills, including ballpark design, reaction time, throwing accuracy, injury prevention, air resistance and more.

Plus, students got to take the PhanaVision control room for a spin!

STEM principles are at the foundation of our work at PGW. Our employees are passionate about promoting STEM education and careers with students.

WALK-IN FOR HELP NEAR YOU

At any of the nearly 20 Neighborhood Energy Centers (NEC) throughout the City, PGW-trained energy counselors are ready to help.

At an NEC, you can get:

- Information about & apply for PGW assistance programs,
- Help understanding your bill,
- Tips to lower your energy bills,
- Budget counseling, and more.

NECs are open Monday to Friday.

Find one near you:

Efficiency

REDUCING EMISSIONS ACROSS PHILADELPHIA

HOW PGW MEASURES EMISSIONS

SCOPE 1

Emissions from
PGW operations

SCOPE 2

Emissions from
electricity PGW
purchases

SCOPE 3

Emissions from
customers,
suppliers, and
products

ENERGY-SAVING IMPACT

10,000+ METRIC TONS CO₂e REDUCED*
≈ removing 2,000+ cars off the road for a year

UPGRADING PHILLY'S GAS MAINS

PGW is replacing existing cast iron gas
mains with modern, durable materials
to reduce emissions and improve safety
across Philadelphia.

**32.6 miles of gas
main replaced**

**6,642 metric tons
CO₂e reduced**

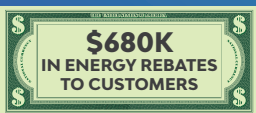

EFFICIENCY PROGRAM IMPACTS

Beyond pipeline work PGW reduces
emissions through EnergySense rebates for
energy-saving upgrades and PGW's Home
Comfort Weatherization.

**3,534
metric tons of
CO₂e reduced**
