EASY TIPS TO SAVE \$\$

Lower your heating bill
this fall & winter:

- ✓ Set thermostat to 68 degrees (or lower).
- ✓ Let sunlight warm your home.
- ✓ Add weather stripping and caulk if you feel a draft.

Help Is Around The Corner

SCAN FOR LOCATIONS

PGW-trained counselors are ready to assist you in-person at your local Neighborhood Energy Center (NEC).

There are nearly 20 NECs in Philly where you can:

- ▶ Apply for LIHEAP, CRP and other assistance.
- ▶ Get help with your bill.
- ▶ Let us show you helpful tools.

Find an NEC: PGWorks.com/NEC

PGW supports MED Week

PGW participated in the City's Minority Enterprise Development Week (MED Week) activities with the Investing in Diversity Networking Brunch at our North Operations Center in October.

Nearly 100 business leaders gathered to network and gain tools to expand their businesses. A fireside chat featuring Donna Allie, President & CEO of Team Clean, and Lola Harper, Senior Executive Vice President of The Enterprise Center, was the highlight of the event.

PREVENT CO POISONING

Carbon monoxide (CO) is a colorless, odorless gas that can be deadly.

Keep your family safe from CO poisoning:

- Install CO alarms on every level of your home.
- Check your alarm's batteries every six months (Daylight Saving Time is a good reminder).
- Keep appliance vents clear of debris and/or snow.
