IMPORTANT CO SAFETY INFO

Carbon monoxide (CO) can be produced by home appliances and other fuel-burning equipment. CO is a colorless, odorless, and potentially dangerous gas that can cause sickness – even death.

To protect your family:

- ▶ Have all your fuel-burning appliances serviced regularly by a qualified technician.
- ▶ Have a CO detector alarm installed, if you don't already have one.
- ▶ Check your alarm's batteries every six months (Daylight Saving Time is a good reminder).
- ▶ Never use an oven to heat your home.

If you suspect CO poisoning,
CALL 911.

Find more safety tips at PGWorks.com/safety or follow @MyPGW on social media.

YOU'RE SAVING \$\$ WITH NATURAL GAS

**COST OF
ELECTRICITY**
\$1,153*

**COST OF
NATURAL GAS**
\$642*

Natural gas remains the most economical way to keep your family warm during the winter months. Customers using natural gas will spend an average of **43 percent less** on winter heating costs than families using electric to heat their homes.

**Lower Your Bill Even More
@ pgworks.com**

- Buy a programmable thermostat & keep it at 68 degrees (or lower).
BONUS: you'll score an instant rebate!
- Order a free Energy Saving Kit with materials to use less energy.
- Check for more tips @MyPGW.

*Average cost for U.S. customers from Nov. 2025 – March 2026

Budget Billing: No More Surprise Heating Bills

PGW's Budget Billing program estimates your gas usage to even out your monthly bill throughout a 12-month period.

This helps you avoid surprises and better predict your heating costs every month. Budget bills are reviewed and adjusted during the year.

Call (215) 235-1000 to get started.
